

NORTH STAR CAPITAL

Equipment Leasing Simplified

Overview

North Star Capital brings alternative and effective financing options to Contractors in the concrete equipment industry.

Leasing equipment significantly reduces the upfront cost to the Contractor, reduces maintenance liability, and removes the tax and accounting burdens associated with ownership.

North Star Capital makes this available, simple, and cost effective for Contractors by partnering directly with the manufacturer.

Lease Origination and Contracting

Automatic Billing and Payments

Asset Management

Paperless Workflows

Reporting and Tracking

Geography

 Initial States where Financing is Available

 Developing States

Fleet Management

Increase your up time with North Star Capital's Fleet Management program. This unique offering enables Contractors and their teams to receive new equipment every 24 - 36 months without the hassle of high-cost maintenance or purchasing new equipment.

Every piece of equipment leased through North Star Capital comes with a warranty and maintenance schedule to increase your work up time.
